Construction of a lentiviral vector containing shRNA targeting ADAM17 and its role in attenuating endotoxemia in mice

BING HE, XIAOOU LI, TUO HU, WENJING LIAN and MINGXIA ZHANG

Mol Med Rep 16: 6013-6019, 2017; DOI: 10.3892/mmr.2017.7307

Subsequently to the publication of this article, the authors have realized that the address affiliation contained a misspelling: The name of their institution was inadvertently written as “Renming Hospital”, whereas this should have been published as “Renmin Hospital”.

The authors regret this error in the affiliations, and apologize for any inconvenience caused.
