

Figure S1. Evaluation of transfection efficiency of GBP2 overexpressing virus. (A) Evaluation of the transfection efficiency of GBP2 overexpressing virus in triple-negative breast cancer parental cells. (B) Evaluation of transfection efficiency of GBP2 overexpressing virus in drug-resistant cells. **P<0.01. NC, negative control; OE, GBP2-overexpression group; PR, paclitaxel-resistant cells; PR + EP, paclitaxel-resistant cells + empty vector; PR + OE, paclitaxel-resistant cells + GBP2-overexpression.
